E-document Delivery E-mail to Fax Service

Whenever you have access to the Internet you have access to VillageEDOCs e-document delivery E-mail to Fax Service. Send faxes to one person or a group from your favorite desktop e-mail application. You don't have to learn a complex fax application, simply send e-mail with any attachment to our service and we'll do the faxing. Confirmations of all fax deliveries are sent to your e-mail address. Send a fax as easily as it is to send e-mail.

Seamlessly integrate to your critical business applications, such as Oracle, ERP and CRM systems to provide Production faxing. The capacity, security and responsiveness to fax invoices, purchase orders and other critical documents are key strengths of the E-mail to Fax Service.

Make broadcasting faxes easier by e-mailing the document and lists directly to VillageEDOCs. We will send faxes to thousands of recipients without you investing in any fax hardware or software. Customize your cover page or use Fax Merge to personalize faxes for better response. Dramatically, cut your fax creation and delivery costs with this all-in-one service.

Reduce your current labor-intensive manual faxing operation as well as save time and money with VillageEDOCs E-mail to Fax service. Proven to be flexible, reliable and cost-effective for businesses worldwide.

Key Advantages include:

- Easy to use, familiar e-mail interface
- Increase productivity by faxing directly from your desktop
- Personalize documents for each recipient with Fax Merge
- Send faxes without ever owning fax equipment
- Fax retries are automatically performed by the service, reducing management time
- Fax-enable critical business applications
- Easy implementation reduces your time-to-market
- Detailed reporting is provided to improve management
- Manage delivery priorities to send important faxes first
